Ankur Tikoo

Student

A CS student who is curious and ready to learn new things. As a teenager I was always fascinated by technology . I've got a knack for Designing. When I'm not doing that, I'm playing video games or watching one of the more clichéd Netflix titles.

EDUCATION

ENGGINERING
CMR Institute of Technology

04/2018 - 08/2022   *6.53*

Courses
- Computer science engginering

PERSONAL PROJECTS

College ERP website using php,html and css (04/2020 - 06/2020)
- we made a website which included attendance of college student and teacher login for tracking assignment

School website for student information using php (08/2020 - 10/2020)
- we made a website for school in which information for each course and student is available and you can add new admissions

Workout app using android studio (07/2021 - 09/2021)
- we made a app for a workout which included the variety of exercises in the app and was helpful for people in lockdown to maintain a healthy lifestyle.

Making Origami using open gl (07/2021 - 08/2021)
- This project is simple one where one just Fold the paper and Unfold it. This project demo the entire process of folding as well as unfolding. Each folding section has been curved with the line, can be seen on the figure in the window.

WORK EXPERIENCE

UX Designer Intern
Iniesta webtech solution private limited

08/2021 - 09/2021

INIESTA is a mobile consulting, design and development company, headquartered in Noida, India. We work with various thought leaders of the mobile industry to design and develop apps that turn ideas into reality. We understand the challenges faced by entrepreneurs and companies while designing apps for different platforms like native, hybrid, and cross-platform.

Made Design for Tax app
- i was assigned to make a full design for a tax app through which the user can file the tax and complete all other services provided by the tax department
